

Thank you for showing interest in the Performing Arts Center's third largest of four performance spaces. **The Recital Hall** is capable of handling any type of event from large multimedia presentations to dance or opera.

The Performing Arts Center is a full service performance facility. The Center maintains a central inventory of equipment for most theatrical and concert needs. Due to the nature of the facility as a four theatre complex we do not publish inventory lists. To ensure that the needs of your production are met we request that you communicate your requirements to us as soon as possible, so that we can make the appropriate allocations. You will find, listed by department, the general types of equipment that we carry. For further information please feel free to contact the Production Office.

AutoCad, Vectorworks, and PDF files of the theatre's ground plan and section, as well as lineset schedule, are available by request.

For further inquiries about space or equipment availability, please contact the Production Office at (914) 251-6266, fax (914) 251-6220.

The Performing Arts Center's address is

## **THE RECITAL HALL STAGING:**

### **Loading Dock Access:**

The Recital Hall has one loading dock, accessed through Parking Lot W2. It is truck level and can handle one 53' tractor trailer at a time. Dock height is 4'-0". Dock is available for loading and unloading only. Short-term and overnight parking for trucks is available by prior arrangement in Parking Lot W2.

### **Stage Deck, Stage Lifts, Flooring:**

The perimeter area of the stage is floored with a masonite layering. The stage deck are within the shell features a stagelam phenolic resin surface. Due to the nature of this material, lagging and screwing into the floor are strongly discouraged and permitted only under special circumstances with prior written approval from the Director of Production. All holes put into the deck **must be predrilled** to avoid cracking of the surface.

The Recital Hall is equipped with a full stage lift downstage of the proscenium. Normally the lift acts as an extended apron, however it can accommodate pit orchestras and additional auditorium seating. For additional seating, the lift can be lowered and an aesthetic wall installed. For loading in/out and adjusting orchestra pit levels, the lift can operate independently, but must remain stationary during performances.

The theatre has a 50' wide Rosco dance floor. There is enough flooring to cover the playing depth of the theatre upstage of the proscenium. The floor is black and non-reversible.

### **Rigging:**

The theatre is equipped with a single purchase counterweight system. Arbor capacity is 1200 lbs. above batten weight. The length of each batten is 60'. There are 4' batten extensions in limited availability. There are 75 linesets available for variable use in this theatre. Our current lineset schedule is available upon request. The house curtain is green and a guillotine type, operated from the deck stage right. There is a center split, but it does **not** travel.

### **Labor:**

The stagehands at the Performing Arts Center are professional, free lance, union stagehands and wardrobe personnel. We abide by many standard union labor rules.. For shows traveling with a "Yellow-Card" we are under the jurisdiction of the New York City and Westchester IATSE Local 1. If you are unfamiliar with the area please contact the Production Office and we will help you arrange your labor through the local Business Office.

## **General Equipment:**

Each theater is equipped with a variety of A-frame ladders and a personnel lift.

The Performing Arts Center owns orchestra chairs, bass stools, music stands and lights for orchestra use. There are 4'x8' risers in heights of 8", 16" and 24". **We do not own choral risers.** The Recital Hall also houses an acoustical concert shell which is in the onstage position in its standard location. It can be moved off stage by prior arrangement. It has a variety of possible configurations depending on orchestra size.

The Performing Arts Center maintains a wide assortment of concert quality Steinway pianos which are available by prior arrangement. **Please be advised that The PERFORMING ARTS CENTER DOES NOT ALLOW TAPE OR ADHESIVES OF ANY KIND ON ANY OF THE PIANOS. THERE ARE NO EXCEPTIONS TO THIS POLICY AND WILL BE STRICTLY ENFORCED.**

The PERFORMING ARTS CENTER has a Steinway-trained house piano tuner, contact the Production Office in advance to arrange tunings, standbys and to discuss associated fees.

The house maintains a **lecture package** including a lectern, chairs, tables with appropriate skirting, and a front projection movie screen; available by prior request. The Center does not own projectors

## **Organ:**

The Recital Hall has, permanently installed in the house left swallow's nest position, a French Baroque organ. This tracker action organ was built in 1979 by Reiger and has 27 ranks. For additional information please contact the Production Office.

## **Dressing Rooms:**

Dressing rooms for this theatre are located one floor below stage level, accessible via stairs stage right and stage left and freight elevator located on stage left. All have makeup mirrors and lights, with tables and chairs. There are restroom facilities and showers located in each dressing room. Rooms break down as follows:

2 chorus rooms	10 people each.
2 chorus rooms	12 people each.
5 private rooms	2 people each.

## **Laundry:**

There are shared laundry facilities located in an adjacent section of the building which must be reserved for use in advance of load-in. We can supply washing, drying and ironing facilities. Portable steamers are available through prior arrangement.

### **Seating Capacity:**

Orchestra	476
Pit rows	<u>84</u>
Total:	560

### **Special Effects:**

Any special or pyrotechnic effects must be approved by the production office prior to load in. All necessary and appropriate certificates must be presented upon arrival.

### **Telephones:**

Stage telephone numbers are as follows:

Backstage	(914) 251-6285
Control booth	(914) 251-6284

These numbers are for incoming and on-campus outgoing calls only.

If you would like a private outgoing line installed for the length of your stay this service can be provided by the production office with 5 working days notice. There is a small fee for installation and an itemized bill of local and long distance calls will be generated for the line.

### **Cellular Phone Coverage:**

Most cell phones work through out our buildings.

### **Wireless Coverage**

There is wifi available on the stage, wings, house and the lobby. Due to the thick concrete around the dressing rooms, one floor down the wifi is intermediate at the moment. However, every effort is being made to fix this and install the needed equipment to ensure a strong wifi signal to every dressing room.

**For visiting wireless access:**

### **The Recital Hall Dimensions:**

Loading Doors:	9'-9"h x 7'-9"w	2.97m x 2.36m
Dock Height:	4'-0"	1.22m
Control Booth to Plaster Line:	78'-0"	23.77m
FOH Rail to Plaster Line	61'-0"	18.59m
Proscenium Width:	44'-8.5"	13.63m
Proscenium Height:	30'-0"	9.14m
Total Playing Depth:	61'-0"	18.59m
<i>(Apron and Lift inc.)</i>		
Stage Depth:	43'-11"	13.39m
<i>(Plaster line to back wall)</i>		
Stage Lift Depth at Centerline	9'-9"	2.97m
Apron Depth at Centerline:	8'-0"	2.44m
Stage Height from House Floor	2'-7"	0.79m
Stage Left Wing:	26'-6"	8.08m
Stage Right Wing:	26'-9"	8.15m
Grid Height:	73'-6"	22.40m
High Steel:	80'-6"	24.54m
Batten Working Height:	4'-2"	1.27m
Batten Working Weight:	1200 lbs.	544.3kg
Batten Length:	60'-0"	18.29m
Batten Extension:	4'-0"	1.22m
Masking Opening:	36'-0"	10.97m
Projection Bay:	42'-10"w x 36'-6" d	13.06m x 11.12m

### **The Recital Hall Drapery Inventory:**

Main Curtain	1	34'w x 40'h	10.36m x 12.19m
Black Legs	10	13'w x 35'h	3.96m x 10.67m
Black Borders	5	60'w x 12'h	18.29m x 3.66
Blackout Drops	2	60'w x 35'h	18.29m x 10.67m
Tab Curtains	10	6'w x 35'h	1.83m x 10.67m
Half-Travellers	2	34'w x 35'h	10.36m x 10.67m
Black Scrim	1	65'w x 35'h	19.81m x 12.19m
Natural Bounce	1	65'w x 40'h	19.81m x 12.19m

## **The Recital Hall Electrical Information:**

### **Control Console:**

The Recital Hall is equipped with an ETC Express 250 Console. It has 24 submasters, and can control 250 channels and 1024 dimmers. An ETC Net2 Video Node and Flatscreen monitor is available upon request. The control booth is located at the rear of the grand tier. It uses an Expression 2-line Remote Focus Unit, which is available upon request

### **Company Power:**

There is one 400 amps per leg, three phase, 208v disconnect available USR or USL at the mid-rail (parallel).

In addition, there are three 400A, 208v company switches available in the dimmer room. These four disconnects draw from the same power that feeds the theater's dimming system. The combined load on the company switches plus the house system cannot exceed 1200 amps/phase. These disconnects are equipped with cam-lock connectors which are **NOT ground & neutral reversed**.

### **House Dimmers and Circuiting.**

The Recital Hall contains a dimmer per circuit system. There are 338 ETC Sensor dimmers distributed to 2p&g stage circuits as follows:

<u>Circuits</u>	<u>Cap.</u>	<u>Dimmers</u>	<u>Cap.</u>
1-308	20 A	1-308	2.4 Kw
501-530	50 A	309-338	6.0 Kw

### **House Lights:**

House lights are dimmable from the control booth, and from downstage left and downstage right. House lights may also be controlled through the control console, or any touring console with DMX protocol.

### **Additional Lighting Inventory**

The Performing Arts Center maintains a large inventory of ETC and Altman instruments which is available to the user. Rental charges may apply. A list of our inventory may be obtained by contacting the Lighting Supervisor. However, due to the constant rotation of our inventory among our theaters, we do not list units totals by type. Lighting equipment can be requested by completing an "Electrics Request Form".

### **House Hang:**

There is a permanent Front of House hang. Overhead are two (2) linesets hung with strip lights without color, predominantly used for worklight and general illumination. These strip lights can be struck as needed.

## **The Recital Hall Audio Information:**

### **Auditorium Amplification:**

The Recital Hall has a three channel house speaker system. The center cluster is a bi-amplified three-way system containing an EAW MK5164 full-range cabinet, and an EAW SB180 subwoofer flown above the proscenium. The left and right stereo cabinets consist of a pair of EAW FR-122 two-way speakers, mounted 12feet above the deck, in the lighting alcove, on brackets that can be swung out of sight when not needed. Power for the center cluster is provided by a Carver PM 1.5 amplifier. Power for the left and right speakers are provided by a 250 watt per channel Carver PM 175 amplifier.

### **Audio Console:**

The house console is a Yamaha LS9-32 digital mixing console. In addition to the console, the house system is also equipped with a Denon DN-C635 CD player and Tascam 302 dual cassette deck. The console, and associated electronics, are located in the control booth at the rear center of the house. This theater is also equipped with a computer dedicated to audio with a variety of software including Show Cue System, Stage Research SFX, Yamaha Studio editor, Shure wireless workbench and Wavelab 7. The computer also has a Dante 8 send and 8 return interface to the mixing console. All software and firmware is kept to the most current version.

### **House Snake:**

The main house microphone snake has 37 channels, and the main box is located on the proscenium wall back stage right. Additional parallel single and double microphone input plates are located throughout the theatre. There are six audio tie lines running from the theatre's patch bay to a central patch point for the facility that can be used to cross-connect audio from various spaces within the facility.

### **Additional Amplification:**

There are three 100w per channel Yamaha P2100 stereo amplifiers located in the control booth which can be patched to speaker jacks located throughout the stage and auditorium areas. There are four Electrovoice 1202 speakers stored in the theatre for basic stage monitor usage.

### **Communication:**

The Recital Hall is equipped with a single channel Clear Com system which is accessible from virtually all points within the theatre.

~~There is also a house page/monitor system which puts program feed to the booths and dressing rooms. Additionally there is talkback to house capability from the lighting and sound booth.~~  
**The dressing room paging and monitor system is currently inoperative until further notice.**

### **Assisted Listening System:**

The Recital Hall also has permanently installed Sennheiser infrared system for the hearing impaired. A limited number of headsets are available at the door to patrons who request them. The system takes its feed from the standard monitor mic.

### **Additional Audio Equipment:**

The Performing Arts Center maintains an extensive inventory of playback equipment, microphones, speakers, amplifiers, signal processing equipment, additional intercom equipment, cables, and accessories. Rental charges may apply. Due to the constant rotation of our inventory among our theaters, we are unable to publish equipment lists. Please feel free to call the Production Office and speak with either the Director of Production or Audio Supervisor regarding the specific needs of your production.

### **Recordings:**

The Recital Hall is acoustically adaptable for recordings. Traps in the stage floor allow passage for microphone snakes to connect with the recording rooms located one level below the stage, adjacent to the dressing rooms. There are two rooms available with soundproofing panel sections for optimum engineering configurations. We do not supply recording equipment or microphone snakes and a **minimum of 75'-100' of cable is required for a recording snake.**

# **LOCAL INFORMATION**

Information is subject to change and the PAC is not responsible for changes or other misinformation.*

## **Transportation and Lodging**

### **Airports:**

The nearest airport to the PERFORMING ARTS CENTER is Westchester County Airport, approximately 2 miles away. LaGuardia, JFK and Newark are all equally accessible, approximately 50 miles from Purchase. For ground transportation inquire in the terminal at the Connecticut Limousine desk, destination Rye, NY.

**By Car:**

**From New York City, Southern Westchester, and Long Island:**

Take the Hutchinson River Parkway, north to Exit 28, Lincoln Avenue. Turn **left onto Lincoln Avenue** and proceed approximately one mile to Anderson Hill Road (2<sup>nd</sup> traffic light). Turn **right onto Anderson Hill Road**. The campus is immediately on the left.

**From Rockland County and Northern New Jersey (via the Tappan Zee Bridge):**

Take I-287 (Cross Westchester Expressway) to **exit 8E**. Shortly after first traffic light, **bear left onto Anderson Hill Road**. Proceed approximately 2.5 miles. **The campus is on the left**, just after intersection at Lincoln Avenue.

**From Northern Westchester:**

Take I-684 south to **Exit 2** (Route 120), drive over the bridge and **turn right onto Route 120 South** (Purchase Street). Follow Route 120 south, 3.2 miles to Anderson Hill Road (1<sup>st</sup> traffic light) and **turn left**. Take Anderson Hill Road to 2<sup>nd</sup> traffic light. **The campus is on the left**, just after intersection at Lincoln Avenue.

**From Connecticut, via the Merritt Parkway (which becomes the Hutchinson River Parkway in New York State):**

Proceed south to the New York Exit 28, Lincoln Avenue (Note: Do not get off at Exit 28 in Connecticut). Turn **right onto Lincoln Avenue** and proceed approximately one mile to Anderson Hill Road (2<sup>nd</sup> traffic light). Turn **right onto Anderson Hill Road**. **The campus is on the left**, just after intersection at Lincoln Avenue

**From Connecticut, via I-95:**

Take I-95 south then take I-287 West to Exit 9N (Hutchinson River Parkway). Take Hutchinson River Parkway North to Exit 28, Lincoln Avenue. Turn **left onto Lincoln Avenue** and proceed approximately one mile to Anderson Hill Road (2<sup>nd</sup> traffic light). Turn **right onto Anderson Hill Road**. **The campus is immediately on the left**.

**By Train:**

Metro North Schedule Information:

Phone: (800) METRO-INFO

(212) 532-4900

[www.mta.info/mnr](http://www.mta.info/mnr)

The White Plains train station maintains a more frequent schedule. Trains from White Plains and Port Chester both end up at Grand Central Station

The last train out of White Plains: 1:14 am (Weekdays and Weekends)

The last train out of Port Chester: 12:58 am (Weekdays and Weekends)

From New York City via rail from Grand Central Station, take the Harlem line/Metro North to White Plains. Board the Anderson Hill Road bus No. 12 or take a taxi to campus.

Alternatively, take the New Haven Line/Metro North to Port Chester and take a taxi to campus.

**By Bus:**

Bus/Westchester: (914) 682-2020

[www.beelinebus.com](http://www.beelinebus.com)

Take the No. 12 bus northbound from White Plains or southbound from Yorktown, Mount Kisco, or Armonk. Buses leave approximately once every hour during normal business hours on Weekdays and the schedule varies on weekends
